

# Precision Facility Services

## Seagate Technology Case Study

Precision Facility Services deliver a range of services to Leading Quality Industry, Retail, Leisure and Public Sector Organisations throughout the UK and Ireland.

Precision Facility Services provide services to Seagate Technology in their Limivady and Londonderry locations.

Precision Facility Services provide a dedicated team of over 50 operatives, who provide a 24/7, fast and flexible response to the demands of this high technology driven facility.

The facility includes class 100 clean rooms. Seagate employ over 3000 employees across both locations.

Precision is a key integral part of supporting facilities and production departments. The service standards are the highest expected in the industry.
